Operation To Target Off-Road Motorcycle Nuisance

Dear Derek

Thank you if you completed our recent survey about the illegal and nuisance use of off-road motorbikes, mopeds, scrambler bikes and quads bikes.

It's clear that this is an issue for many residents in Lancaster and Morecambe so we've launched Operation Crankshaft to address it. The operation will see officers patrolling areas which residents have highlighted as an area of concern including cycle tracks, housing estates, wasteland and industrial estates. We will also utilise a range of powers to seize any bikes that are being used illegally and prosecute those committing offences.

As part of the operation, a dedicated email address has been set up. You can now report any anti-social or nuisance riders to OpCrankshaft@lancashire.police.uk. We will collate and examine any information sent to us and treat it with confidence. People can also submit photographs but we must stress that images should only ever be taken if it is safe to do so.

By reporting incidents to us, you will help us to build a picture of who the repeat offenders are. We will then be better placed to tackle this long-term problem, making Lancaster and Morecambe a safer place for all.

Reports can also be made on 101 – or, if there is an imminent danger, 999 should be dialled.

Thank you for your continued support.

The Lancaster and Morecambe policing team
